City of East Cleveland – Cuyahoga County

Introduction

At the request of the Financial Planning and Supervision Commission (the Commission) of the City of East Cleveland (the City) the Auditor of State (the AOS) has prepared this report of the City's options moving forward through and ultimately from fiscal emergency. The Commission motion asked the AOS to assemble an objective assessment of what the different options are (for the City) and what they entail. One of the first and foremost objectives of the motion is to provide information; objectivity and transparency as to where the City is (financially and process-wise).

This report includes our objective assessment of where the City is financially and the options that are available to the City. This report includes a current five year forecast for 2015 through 2019 to indicate the status of the City currently. The report also includes eight potential scenarios, off this forecast, to demonstrate potential options that are available to the City and the potential consequences of those choices. The report also includes the potential options of merger, annexation and bankruptcy for the City.

Background

The City was placed in fiscal emergency for the first time on September 9, 1988 after a fiscal analysis showed deficit funds of \$3.7 million and a treasury deficit of \$2.5 million. The City struggled for more than a decade to take the necessary steps for financial recovery despite having developed several recovery plans. On February 6, 2006 the fiscal emergency status was terminated for the City of East Cleveland after spending more than 17 years in fiscal emergency.

On January 5, 2012, the Auditor of State declared the City of East Cleveland to be in a state of fiscal caution in accordance with Section 118.025 (A) of the Ohio Revised Code. The declaration was based on a review of fund financial data at November 30, 2011. The City of East Cleveland had deficit fund balances in the amount of (\$5,872,222) and the deficits exceeded two percent of the estimated revenue of those funds by \$5,451,535.

On May 23, 2012, the Auditor of State declared the City of East Cleveland in fiscal watch. This declaration was based upon the failure of the City to provide an acceptable proposal for correcting the conditions that prompted the declaration of fiscal caution.

On October 9, 2012, the Auditor of State placed the City of East Cleveland back into a state of fiscal emergency in accordance with Section 118.03 of the Ohio Revised Code. The declaration was based upon review of the financial recovery plan submitted to the Auditor's office. The Auditor of State determined that the City of East Cleveland failed to submit a feasible financial recovery plan for correcting the conditions that prompted the declaration of fiscal watch.

Current Condition

The major sources of revenues for the City are income taxes, local government revenues received from the State of Ohio, property taxes and charges for services receipts from a trash collection fee as well as a street lighting assessment. The City has seen a reduction in its revenues over the past few years. This reduction has created challenges for the City as they have attempted to keep their expenditures within those reduced revenues.

As in any City, the main expenditures are for salaries and benefits to its employees. The City has significantly reduced its staffing levels but those reductions have not been substantial enough to keep the City from continuing to have a structural imbalance. Simply put, the City's revenues are not enough to maintain the current level of employment and services that the City is attempting to provide.

Thus far during 2015 the revenues that the City has received are in line with its amended certificate of estimated resources that has been certified by the Cuyahoga County Fiscal Officer and its expenditures are within the appropriations set in place by the East Cleveland City Council. However, currently the City has approximately

City of East Cleveland – Cuyahoga County

\$3.4 million in outstanding accounts payable, which include several judgments from lawsuits that have been settled. The 2015 appropriations do not include the approximately \$3.4 million in outstanding accounts payable. The City is not receiving enough revenue to pay these outstanding bills.

The City currently struggles to meet its present payroll and benefit obligations. After meeting payroll and benefit obligations, any remaining resources are used to pay healthcare claims, utilities or any emergency expenses that might occur. Since the City is trying to keep up with its payroll and the most pressing bills, outstanding accounts payable has continued to slowly increase during 2015.

A summary of the City's capital assets is included in Appendix A Schedule 1. This summary demonstrates the degree of deferred maintenance that has occurred for most City assets. As of December 31, 2012, the City's Building and Improvements, Equipment and Vehicles have a combined 87 percent depreciated useful life, which indicates a degree of useful life remaining of only 13 percent. There have been minimal capital asset replacements and improvements that have occurred to change this statistic since 2012.

The City maintains a detailed capital asset listing that has not been updated since 2012 in Appendix A Schedule 2. This listing is comprised of City owned land, buildings, equipment, vehicles and infrastructure. The ending balance column of this report represents the estimated historical cost of each asset listed and does not represent the value that could be received for that asset upon disposal.

The listing of appraised value of parcels titled to the City in Appendix A Schedule 3 includes all land and buildings titled to the City at their appraised values. Of the \$12.3 million of appraised values, approximately \$10 million represent Helen S. Brown Senior Center, Forest Hills Park, City Hall, Fire Station #2 and Maintenance Garage.

The potential to sell or dispose of the City's assets in their current condition is not likely to generate enough funds to produce a significant effect on the City's current financial condition.

The capital assets needs included in Appendix A Schedule 4 represent needs and estimated cost identified by City management. These identified needs and estimated costs have not been evaluated by the Auditor of State.

City of East Cleveland – Cuyahoga County
Summary of Options

Forecast

The five year forecast on pages 10-19 included in this report is for the City's General Fund. It reflects the revenues that the City is currently receiving and how, based on history, those revenues would continue throughout the five year period. It also includes the City's Council approved 2015 appropriations. These appropriations are based on the current staffing levels existing at this time. The forecast expenditures do not include provision to pay the \$3.4 million in outstanding accounts payable and judgments. We have included these payables and judgments below the initial calculation of the General Fund balance for each year to demonstrate the true forecasted position of the City. If no action is taken on any of the additional scenarios or options discussed within this report, it is anticipated the City will be required to address these payables and judgments within this five year period.

Also in conjunction with the five year forecast are assumptions that explain what is in each of the major revenue and expenditure items within the forecast. Should the City continue its current operations with its current staffing, the forecast continues to show a structural imbalance in each of the outgoing forecasted years.

Forecast Scenarios

Scenario 1 – Issuing Local Government Fund (LGF) Notes to Eliminate All Delinquent Payables Scenario 1 begins with the General Fund five year forecast as presented on pages 10 through 19 and reflects the City's appropriations staying within current estimated revenues. The City could issue \$3,498,880.92 in LGF Notes to pay all the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92 and bond counsel associated costs of \$100,000. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. To ensure that the City stays within their estimated revenues and in compliance with the City's recovery plan, employee reductions are required. An average salary and benefits cost of \$64,830 was used. In each of the forecasted years, the reduction in personnel is cumulative. Since the City's employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. Scenario 1 sees a minor reduction in the General Fund's deficit during the forecasted years.

Scenario 2 – Issuing Local Government Fund Notes to Eliminate All Delinquent Payables and Non-General Fund Deficits Scenario 2 assumes the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City's appropriations staying within current estimated revenues. The City could issue \$5,016,588.52 in LGF notes to pay the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92, bond counsel associated costs of \$100,000 and a transfer out of \$1,517,707.60 to eliminate the non-General Fund deficits. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. To ensure that the City stays within their estimated revenues and in compliance with the City's recovery plan, employee reductions are required. An average salary and benefits cost of \$64,830 was used. In each of the forecasted years, the reduction in personnel is cumulative. Since the City's employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. Scenario 2 sees a minor reduction in the General Fund's deficit during the forecasted years.

Scenario 3 – Issuing Local Government Fund Notes to Eliminate All Delinquent Payables and Non-General Fund Deficits in 2015 and a Four Year Reduction of the General Fund Deficit Scenario 3 assumes the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City's appropriations staying within current estimated revenues. The City could issue \$5,454,692.70 in LGF notes which is the maximum amount allowed under Ohio Revised Code Section 118. The proceeds would be used to pay the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92, bond counsel associated costs of \$100,000 and a transfer out of \$1,517,707.60 to eliminate non-General Fund deficits. The remaining \$438,104.18 in proceeds would reduce the General Fund's deficit in 2015. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. The City would need to eliminate 34

City of East Cleveland – Cuyahoga County
Summary of Options

positions in 2016 to eliminate the General Fund's deficit in 2019. An average salary and benefits cost of \$64,830 was used. Since the City's employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. This scenario would result in the General Fund balance being \$141,834.16 in 2019.

Scenario 4 – Issuing Local Government Fund Notes to Eliminate Delinquent Payables at 50 Percent and Judgments at 100 Percent Scenario 4 starts with the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City's appropriations staying within current estimated revenues. This scenario assumes the vendors will settle for 50 percent of the outstanding payables. The judgments would be paid at 100 percent. Should the vendors agree to such conditions or terms, the amount needed to pay the delinquent accounts payable known at July 9, 2015 would be \$2,512,966.96. The City would then only need to issue \$2,612,966.96 in LGF Notes. The remaining proceeds of \$100,000 would be to pay bond counsel costs associated with the issuance of LGF notes. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. To ensure that the City stays within their estimated revenues and in compliance with the City's recovery plan, employee reductions are required. An average salary and benefits cost of \$64,830 was used. In each of the forecasted years, the reduction in personnel is cumulative. Since the City's employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. This scenario sees a minor reduction in the General Fund's deficit during the forecasted years.

Scenario 5 – Issuing Local Government Fund Notes to Eliminate Delinquent Payables at 50 Percent and Judgments at 100 Percent and Non-General Fund Deficits Scenario 5 assumes the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City's appropriations staying within current estimated revenues. This scenario assumes the vendors will settle for 50 percent of the outstanding payables. The judgments would be paid at 100 percent. This reduces the amount needed to pay the delinquent accounts payable known at July 9, 2015 to \$2,512,966.96. The City could then issue \$4,130,674.56 in LGF Notes. The remaining proceeds of \$1,617,707.60 would be to pay \$100,000 in bond counsel costs associated with the issuance of LGF notes and a transfer out of \$1,517,707.60 to eliminate non-General Fund deficits. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. To ensure that the City stays within their estimated revenues and in compliance with the City's recovery plan, employee reductions are required. An average salary and benefits cost of \$64,830 was used. In each of the forecasted years, the reduction in personnel is cumulative. Since the City's employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. This scenario sees a minor reduction in the General Fund's deficit during the forecasted years.

Scenario 6 – Issuing Local Government Fund Notes to Eliminate Delinquent Payables at 50 Percent and Judgments at 100 Percent and Non-General Fund Deficits in 2015 and a Four Year Reduction of the General Fund Deficit Scenario 6 assumes the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City's appropriations staying within current estimated revenues. The City would issue \$5,454,692.70 in LGF notes which is the maximum amount allowed under Ohio Revised Code Section 118 based upon the City's local government receipts. This scenario assumes the vendors will settle for 50 percent of the outstanding payables. The judgments would be paid at 100 percent. This reduces the amount needed to pay the delinquent accounts payable known at July 9, 2015 to \$2,512,966.96. The City would pay bond counsel associated costs of \$100,000 and a transfer out of \$1,517,707.60 to eliminate non-General Fund deficits. The remaining \$1,324,018.14 in proceeds would reduce the General Fund's deficit. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. The City would need to eliminate 31 positions in 2016 to eliminate the General Fund's deficit in 2019. An average salary and benefits cost of \$64,830 was used. Since the City's employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. This scenario would result in the General Fund balance being \$264,488.12 by 2019.

City of East Cleveland – Cuyahoga County
Summary of Options

Scenario 7 – Issuing Local Government Fund Notes to Eliminate All Delinquent Payables and a 20 Percent Reduction in Expenditures Scenario 7 starts with the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City’s appropriations staying within current estimated revenues. The City would issue \$3,498,880.92 in LGF Notes to pay all the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92 and bond counsel associated costs of \$100,000. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. The General Fund would transfer \$1,517,707.60 to eliminate all non-General Fund deficits. This scenario reflects a 20 percent reduction each year to total expenditures. The City would need to eliminate 34 positions in the forecasted years 2016 and 2017. An additional position, for a total of 35 positions, would need to be eliminated in 2018 and 2019 to reflect the 20 percent reduction. An average salary and benefits cost of \$64,830 was used. Since the City’s employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. Although this scenario sees a reduction in the General Fund’s deficit during the forecasted years, the General Fund continues to have a deficit ending balance in 2019 of (\$520,204.36).

Scenario 8 – Issuing Local Government Fund Notes to Eliminate All Delinquent Payables and a 30 Percent Reduction in Expenditures Scenario 8 starts with the same General Fund five year forecast as presented on pages 10 through 19 and reflects the City’s appropriations staying within current estimated revenues. The City would issue \$3,498,880.92 in LGF Notes to pay all the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92 and bond counsel associated costs of \$100,000. The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31 percent. The General Fund would transfer \$1,517,707.60 to eliminate all non-General Fund deficits. This scenario reflects a 30 percent reduction each year to total expenditures. The City would need to eliminate 51 positions in the forecasted years 2016 and 2017. An additional position, for a total of 52 positions, would need to be eliminated in 2018 and 2019 to reflect the 30 percent reduction. An average salary and benefits cost of \$64,830 was used. Since the City’s employees pay a portion of their healthcare, with the reduction in personnel also comes a reduction in revenue. The employee healthcare contribution is reduced to coincide with the reduction in personnel. This scenario reflects the General Fund becoming positive in 2017 and grows to \$3,807,385.64 in 2019.

City of East Cleveland – Cuyahoga County
Summary of Options

Merger

A merger occurs when one municipal corporation is joined with an adjacent municipal corporation. Merger can occur by petition or agreement.

Merger by petition begins when a petition proposing the merger is filed with the county board of elections. If the merger is approved by a majority of voters in each municipal corporation, commissioners are elected to formulate the conditions of merging. If the commissioners agree on the conditions and by a majority of the voters in the election, merger by petition occurs.

Merger by agreement begins when the legislative authorities of each municipal corporation agree to a merger and adopt, by a two-thirds vote, an ordinance or resolution proposing a merger. The legislative authorities then enter into a merger agreement that specifies the conditions of the merger in identical ordinances or resolutions. If the merger is approved by a majority of the voters in a special election, merger by agreement occurs.

Annexation

Annexation occurs when the legislative authority proposes that the territory should be joined with an adjacent municipal corporation. Annexation can occur through ordinance, petition, or assent.

Annexation by ordinance begins when the legislative authority proposes annexation through an ordinance and appoints three commissioners to represent it in negotiations and the legislative authority of the municipal corporation with which annexation is proposed passes an ordinance designating three commissioners to represent it in such negotiations. If the commissioners come to an agreement, annexation by ordinance occurs.

Annexation by petition begins when residents sign a petition representing their desire to be annexed. The legislative authority then appoints three commissioners to represent it in negotiations, as does the other municipal corporation's legislative authority. If the commissioners come to an agreement, annexation by petition occurs.

Annexation by assent occurs when the legislative authority, by ordinance, assents to annexation and waives the submission of the question to the voters, unless the voters petition for an election.

Bankruptcy

Chapter 9 Bankruptcy occurs when the taxing authority, upon approval of the tax commissioner, files a petition stating that the subdivision is insolvent or unable to meet its debts as they mature, and that it desires to effect a plan for the readjustment of its debts. The petition must be filed in the United States circuit court of appeals, as Federal law dictates the bankruptcy procedure. While the bankruptcy case is ongoing, a stay is put in place, which stops the collection of debts against the municipality.

Chapter 9 Bankruptcy requires a municipality to create a debt restructuring plan, which the court can either approve or reject, with the input of the creditors. The plan should provide for the treatment of the various classes of creditors' claims against the municipality. In addition, the plan, as determined by the court, must be feasible, and in the best interests of the creditors. A typical Chapter 9 Bankruptcy does not discharge all of a municipality's debts, but simply reduces them.

The municipality has wide discretion on how to repay its debts, including selling city-owned assets, such as real estate. In addition, the city, with the approval of the court, may alter union contracts and severance packages as a cost-saving measure. Chapter 9 Bankruptcy is not a prospective solution, meaning it will not prevent debt from accumulating in the future, will only serve to adjust the municipality's current debt and will not guarantee resolution of the City's structural imbalance.

City of East Cleveland – Cuyahoga County
General Fund Forecast Assumptions
For the Years Ending December 31, 2015 through 2019

The City

The City of East Cleveland (the “City”) is located in Cuyahoga County, Ohio, east of the city of Cleveland and has a population of approximately 18,000. The City is a home rule municipal corporation under the laws of the State of Ohio which operates under its own charter. The current Charter, which provides for a Council/Mayor form of government, was adopted in 1918.

The Mayor, elected by the voters for a four-year term, is the head of the municipal government for ceremonial, administrative and executive purposes and presides at Council meetings. As the chief conservator of the peace, he oversees the enforcement of all laws and ordinances. He also appoints all department heads and executes all contracts, conveyances and evidences of indebtedness of the City.

Legislative authority is vested in a five member council with all five members elected at large for two-year staggered terms. Council enacts ordinances and resolutions relating to tax levies, appropriates and borrows money and accepts bids for materials and services and other municipal purposes.

On October 9, 2012, the Auditor of State’s office declared the City of East Cleveland to be in a state of fiscal emergency in accordance with Section 118.03, Ohio Revised Code. The declaration resulted in the establishment of a Financial Planning and Supervision Commission. The Commission is comprised of the Mayor of the City, Council President, three financial consultants from various corporations and/or organizations within the City and two representatives from the State of Ohio. The City currently has a financial recovery plan in place that was approved by the Commission on June 3, 2014. Once the plan has been adopted, the City’s discretion is limited in that all financial activity of the City must be conducted in accordance with the plan.

Nature of Presentation

The forecast presents the General Fund. The General Fund is the operating fund of the City and is used to account for and report all financial resources, except those required to be accounted for and reported in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the charter of the City of East Cleveland and/or the general laws of Ohio.

The assumptions disclosed herein are those that are significant to the forecast. There will usually be differences between the forecasted and actual results because events and circumstances frequently do not occur as expected, and those differences may be material. The five year forecast assumes the City will remain at the current revenue stream and maintain current staffing and expenditure level. Based upon the capital needs of the City, the forecast could be further impacted by the repair and replacement of capital assets.

Revenue Assumptions

Property Taxes The 2015 amount was certified by the Cuyahoga County Fiscal Officer. Cuyahoga County will be performing a triennial update on its property valuations during 2015 which will affect the property tax revenue the City receives in 2016. The 2012 property tax reappraisal resulted in a reduction in valuation. It is estimated that the valuation will be reduced by three percent. The County will be performing a reappraisal during 2018 which will affect the property tax revenue the City will be receiving in 2019. Property taxes are anticipated to further decrease due to those historical trends. The property tax revenues for the general fund are generated from several levies. The current levies being collected for the general fund and the full tax rate are as follows:

City of East Cleveland – Cuyahoga County
General Fund Forecast Assumptions
For the Years Ending December 31, 2015 through 2019

Tax Levies	Year Approved	Full Tax Rate (Per \$1,000 of Assessed Valuation)
Inside Ten Mill Limitation (Unvoted)	n/a	\$3.12
Charter Milleage - Operating	1976	6.98
Total Tax Rate		\$10.10

The City also has levies for police and fire pension permanent improvements totaling \$2.60 per \$1,000 of assessed valuation. The full tax rate for all City operations for the year ended December 31, 2014, was \$12.70 per \$1,000 of assessed value. The assessed values of real and tangible personal property upon which 2014 property tax receipts were based are as follows:

Real Estate	
Residential/Agriculture	\$86,946,820
Commercial Industrial/Public Utility	44,318,670
Tangible Personal Property	
Public Utility	11,018,960
Total Valuation	\$142,284,450

Income Taxes The City levies a municipal income tax of two percent on all salaries, wages, lottery winnings, commissions and other compensation, and net profits earned within the City as well as on incomes of residents earned outside of the City. Employers within the City are required to withhold income tax on employee compensation and remit the tax to the Regional Income Tax Agency (RITA) at least quarterly. Corporations and other individual taxpayers are required to file a declaration annually and quarterly estimated tax payments are recommended. Income tax proceeds are received by the general fund.

The City is on track to reach the amount forecasted for 2015. However, income tax revenues have continued to decrease annually due to the loss of population as well as the loss Huron Hospital. Because of this, the income taxes estimates are anticipated to decrease approximately two percent annually throughout the forecast period.

Local Government The 2015 amount was certified by the Cuyahoga County Fiscal Officer. Local government revenues are driven by both the State budget and the Cuyahoga County Fiscal Officer’s alternative method of calculating each subdivision’s revenue apportionment. Since neither can be estimated, the local government figure is forecast to remain the same throughout the forecast period.

Homestead and Rollback The 2015 amount was certified by the Cuyahoga County Fiscal Officer. There is a direct correlation between property taxes and homestead and rollback so the reductions discussed for property taxes hold true for homestead and rollback revenues as well.

Safe Route & Schools Resource Officer This revenue source comes from the East Cleveland City School District. The City provides a police officer to the School District while school is in session. The City charges the School District for the police officer’s services. Prior to 2015, this activity was maintained in its own fund. The City is now running this activity through the general fund. The City anticipates the service to be consistent throughout the forecast period and the revenues are forecasted to remain the same.

City of East Cleveland – Cuyahoga County
General Fund Forecast Assumptions
For the Years Ending December 31, 2015 through 2019

Refuse Fee City Council passed Ordinance 02-12 on September 18, 2012 increasing the refuse fee annually beginning on August 1, 2013 through August 1, 2017. Refuse fees are coming in at the 2015 estimated level. Several delinquent accounts were paid during 2014 which caused those revenues to increase. Because of this, anticipated revenues through 2018 are expected to increase and then level off in 2019.

Street Lighting The street lighting fee is assessed by the City on each property owner's tax bill. These revenues have leveled off to the 2015 estimated amount. This amount is expected to remain the same throughout the forecast period.

Fines and Forfeitures This revenue source is received from the East Cleveland Municipal Court and has been consistent at approximately \$900,000 annually. Fine and forfeiture revenue has been forecast to remain the same during the forecast period.

Other Revenue Other revenues include special assessments, traffic cameras, interest, cable franchise, licenses and permits, telephone compensation, reimbursements ODOT grant monies, health care contribution, rental, workers' compensation rebate, sale of Noble Road property, sale of cell tower lease, transfer station lease, Cleveland Clinic monies and miscellaneous revenue.

Since being in placed in fiscal emergency in 2012, the City has explored many options of acquiring additional revenues. During 2013, the City received the final payment resulting from the agreement with Huron Hospital. During 2014, the City sold City property on Noble Road to a developer for economic development as well as leasing a cell tower. During 2014 the Ohio Bureau of Workers' Compensation (BWC) declared a surplus and provided a rebate to all participants who were current with payments to BWC. These revenues are non-recurring.

Traffic camera revenue is forecast to be eliminated after 2015 thus causing a reduction in total other revenue. This is forecast to remain consistent during 2016 through 2019.

Licenses and permits consist of various building, plumbing and electrical permits as required by City ordinance. This revenue is anticipated to remain consistent throughout the forecast period.

City employees contribute towards the cost of the health insurance at differing rates as negotiated in the contracts. This is anticipated to remain consistent throughout the forecast period.

Transfers In The City closed several dormant funds during 2015 and those funds were transferred into the general fund. This is a one-time source of revenue and is only reflected in the forecast during 2015.

Expenditure Assumptions

Salaries

Salaries include wages and longevity paid to the employees and elected officials of the City and includes the most recent labor agreements. All employees receive their compensation on a bi-weekly basis. City Council, by ordinance, sets the salary and hourly rates for elected officials and employees not covered by a labor agreement. The City has the following labor agreements:

City of East Cleveland – Cuyahoga County
General Fund Forecast Assumptions
For the Years Ending December 31, 2015 through 2019

Department and Union Local	Contract Period
Service	
AFSME	1/10/2015 -- 12/31/2015
Local Union 1099	1/21/2011 -- 12/31/2015
Fire

FOP OLC Correction Officers and Jail Administrators*	1/1/2011 -- 12/31/2013

* The City is currently in negotiations

The City Council includes five elected members and one full-time administrative position. Per City charter, Council members are paid \$4,500 per year, while the Council president is paid \$6,000 per year, payable in equal monthly installments.

The Court has one elected Judge and 13 other Court employees. Wages in this department are paid in part by the City and Cuyahoga County. The State of Ohio also pays a portion of the Judge's salary.

Staffing levels for the past two years and the current year are displayed in the chart below. Staffing levels are anticipated to remain consistent throughout the forecast period.

Year	Number of Employees
2013	235
2014	160
2015	149

Salaries are based on the City's staffing levels as of the date of this report. The City paid a large amount of severance payments during 2015 and those are not anticipated to reoccur. The police and fire departments have increases built in annually due to negotiated agreements. The human resources department costs are forecast to decrease in 2015 and again in 2016 due to the City replacing the human resources director with an employee already working at the City.

City Council passed Ordinance No. 29-15 increasing ambulance billing fees in 2015 as follows:

Service	Old Rate	New Rate
Basic Life Support	\$375.00	\$700.00
Advanced Life Support	475.00	800.00
Advanced Life Support Plus	475.00	950.00
Mileage (per transport mile)	7.00	12.00

City of East Cleveland – Cuyahoga County
General Fund Forecast Assumptions
For the Years Ending December 31, 2015 through 2019

This additional revenue in the EMS fund will allow the City to move \$250,000 of firefighter salaries to the EMS fund starting in 2016 and throughout the forecast period.

Benefits Fringe benefits include employer contributions to the State pension system, workers’ compensation, Medicare, vacation, sick leave, personal days and medical, prescription, eye care and dental health coverage.

All employees and/or elected officials, except police and fire, participate in the Ohio Public Employees Retirement System (OPERS). OPERS provides basic retirement, disability, and death benefits to plan members and beneficiaries. Benefits are established by Chapter 145 of the Ohio Revised Code. Employees are required to contribute 10 percent (the maximum) of their annual salary and the City is required to contribute 14 percent (the maximum) of their annual salary.

Police and fire employees participate in the Ohio Police and Fire Retirement System (OP&F). OP&F provides basic retirement, disability, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. Employees are required to contribute 10 percent (the maximum) of their annual salary and the City is required to contribute 19.5 percent for police and 24 percent for fire (the maximum) of their annual salary.

Workers’ compensation coverage is provided by the State of Ohio. The City pays the State Workers’ Compensation System a premium based on a rate per \$100 of salaries.

The City manages employee health benefits on a self-insured basis. The self-insured healthcare program includes hospital/medical benefits. Rates are based on recommended amounts from the City’s third party administrator. The monthly payments, per individual, for health care benefits are as follows:

Plan	Single	Single Plus Spouse	Single Plus Child	Family
EPO Medical Plan	\$485.45	\$922.44	\$823.93	\$1,398.34
PPO Medical Plan	501.49	938.18	845.16	1,414.91
Dental	16.53	n/a	n/a	49.89
Vision	5.19	n/a	n/a	15.34

Other Other expenditures include all remaining departmental expenditures that are not personnel related. Other expenditures are forecasted to increase beginning in 2016 and beyond. The increase is due to the City paying approximately \$216,000 in other expenditures out of the permanent improvement fund during 2015 and depleting that fund balance. Those monies will not be available after 2015.

Transfers Out As mentioned in the transfers in section of the revenues, the City closed several dormant funds and transferred those monies into the general fund. The City will use some of those monies during 2015 to transfer to other deficit funds to help eliminate or reduce the deficit in those funds. In the years 2016 through 2019, the City is only forecasting to transfer to its bond retirement fund to pay outstanding loans to the Ohio Public Works Commission.

¹ This scenario assumes the same General Fund five year forecast as presented on pages 10 through 19.

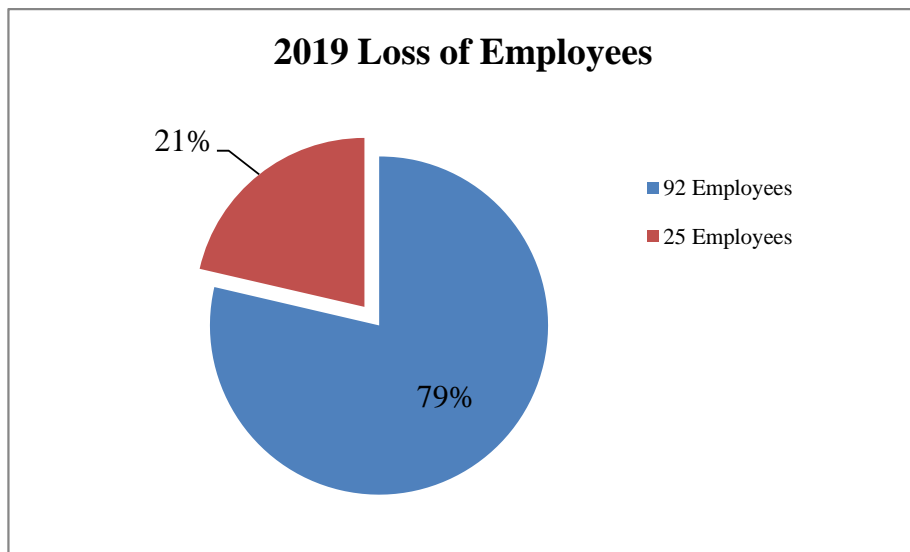

² The City borrows to pay all the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92 and bond counsel costs associated with the issuance of LGF notes of \$100,000.

³ Employee healthcare contribution is reduced to coincide with the reduction in personnel.

⁴ The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31%.

⁵ To ensure the City stays within their estimated revenues and in compliance the City's recovery plan, employee reductions are required. This assumes an average salary and benefits of \$64,830. The total employee reduction for each successive year is cumulative.

¹ This scenario assumes the same General Fund five year forecast as presented on pages 10 through 19.

² City borrows maximum LGF Notes allowed by Ohio Revised Code Section 118 to pay delinquent accounts payable known at July 9, 2015 of \$3,398,880.92, bond counsel costs associated with the issuance of LGF notes of \$100,000, eliminates non-general fund deficits of \$1,517,707.60 and uses remaining proceeds of \$438,104.18 to reduce the General Fund deficit.

³ Employee healthcare contribution is reduced to coincide with the reduction in personnel.

⁴ The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31%.

⁵ This assumes an average salary and benefits of \$64,830.

¹ This scenario assumes the same General Fund five year forecast as presented on pages 10 through 19.

² The City borrows to pay the delinquent accounts payable known at July 9, 2015 of \$3,398,880.92 and bond counsel costs associated with the issuance of LGF notes of \$100,000.

³ Employee healthcare contribution is reduced to coincide with the reduction in personnel.

⁴ The repayment of LGF notes begins in 2016 assuming a payback over 8 years at an interest rate of 4.31%.

⁵ To ensure the City stays within their estimated revenues and in compliance the City's recovery plan, employee reductions are required. This assumes an average salary and benefits of \$64,830. The total employee reduction for each successive year is cumulative.

City of East Cleveland – Cuyahoga County
Rules of Merger

Merger by Petition

1. A petition proposing the merger is filed with the county board of elections.
2. The board of elections will then submit the merger for approval or rejection at the next general election. The general election must take place at least 90 days of the petition is filed. (At least 90 days)
3. A copy of the petition will be filed with each municipal corporation.
4. At least 30 days before the date of the election, a joint public meeting will be held. Each legislative authority will state and explain their position on the merger.
5. If the merger is approved by the majority of voters, five candidates from each municipality will be elected to the commission to create the conditions for the merger. They will meet on the tenth day after the certification of the election. (10 Days)
6. Once the merger conditions are prepared, the members of the commission must vote on them. If the majority agrees, the commission issues a report listing the conditions and the reason for adopting each condition.
7. After the next general election, but at least 90 days preceding the second general election, the commission must submit the agreement and conditions to the board of elections. (Timeframe varies.)
8. The question of approval or rejection must be submitted to the voters at the second general election.
9. If approved, the merger is effective on the first day of January, unless the conditions specify a different date.

Merger by Agreement

1. The legislative authorities of each political subdivision must agree to a merger and adopt, by a two-thirds vote of each legislative authority, an ordinance or resolution proposing a merger.
2. The legislative authorities have 120 days to enter into a merger agreement that specifies the conditions of the proposed merger by a majority vote of each legislative authority. (120 Days)
3. The legislative authorities must submit the question of merger to the electors at a special election to be held on the day of the next primary or general election that occurs at least 90 days after the ordinance or resolution is submitted to the board of elections. (90 Days)
4. If the merger is approved by a majority of the voters the merger will take immediate effect.

City of East Cleveland – Cuyahoga County
Rules of Annexation

Annexation by Ordinance

1. The legislative authority can propose annexation of its territory to another municipal corporation through an ordinance declaring its desire to be annexed, and shall appoint three commissioners to represent it in negotiations and to arrange for the conditions of annexation.
2. After the passage of the ordinance, within 30 days after the receipt, the legislative authority of the municipal corporation with which annexation is proposed may pass an ordinance designating three commissioners to represent it in such negotiations. (If three commissioners are not designated within 30 days, the citizens may request that the legislative authority appoint three commissioners, through a petition containing signatures equal to 75% of electors who voted at the last regular municipal election, and the legislative authority must do so.)

Annexation by Petition

1. At least 25% of resident electors, who voted at the last regular municipal election, must sign a petition requesting that the legislative authority take the necessary steps to select and appoint three commissioners to represent such municipal corporation in annexation proceedings.
2. The legislative authority, within 30 days after the presentation of the petition, shall pass an ordinance to enter into negotiations with the municipal corporation with which annexation is proposed and shall appoint the three commissioners to represent it. (30 Days)

For Annexation by Ordinance and Petition

1. The commissioners will determine the conditions of annexation and report the results to the legislative authorities within 120 days from the date of their appointment. (120 Days) (If the commissioners are unable to agree upon conditions of annexation, the probate judge of the county in which the municipal corporations are situated shall appoint one additional commissioner. The conclusions arrived at and agreed upon by any four of the commissioners shall be the conditions upon which annexation shall be submitted to the voters.)
2. Within 30 days after filing the conditions, the legislative authorities shall order the question of annexation to be submitted to a vote at the next regular election or primary election, occurring at least 90 days after the filing. (30 Days and At Least 90 Days)
3. If a majority of the voters approve annexation, and certain filings have been completed, the annexation is final.

Annexation by Assent

The legislative authority of a city may, by ordinance, assent to annexation and waive the submission of a question to the voters. (However, if within 30 days a petition has been filed with the board of elections, containing signatures of at least 25% of the voters of each city the question must be submitted to the voters.)

City of East Cleveland – Cuyahoga County
Rules of Bankruptcy

BANKRUPTCY

1. The tax commissioner must approve filing a petition.
2. If permission is given, the taxing authority may file a petition requesting to file for bankruptcy.
3. If certain conditions are met, the petition for bankruptcy is filed in the appropriate circuit court of appeals, where the chief judge will designate a bankruptcy judge to conduct the case.
4. If the petition is not dismissed, the entity must file a plan for the adjustment of the debts.
5. The court will confirm the plan if it complies with the requirements, including, amounts to be paid by the debtor have been fully disclosed and are reasonable, the plan provides that on its effective date each holder of a claim will receive cash equal to the allowed amount, and the plan is in the best interests of the creditors and is feasible.
6. The debt is restructured once the plan is confirmed, in addition to other technical steps. (Any debt excepted from the plan or owed to an entity that had neither notice nor actual knowledge of the case is not restructured.)

Schedule 2

City of East Cleveland – Cuyahoga County *City Capital Asset Listing*

Enclosed is a listing maintained by the City of its capital assets. This listing has not been updated since 2012 which means that no additions to or deletions from this listing have been done. It is very likely that some of the items on this listing were no longer of use and have been disposed of by the City.

The items listed are categorized by first fund and then asset type. For example, the fund where the assets are used is listed and then each of the different asset types is broken out under each individual fund. The dollar amount for each item is either historical cost or actual cost. These cost amounts are fixed and do not change over time due to either inflation or appraisals.

Schedule 3

City of East Cleveland – Cuyahoga County
Appraised Value of Parcels Titled to the City of East Cleveland

Due to the age of the capital asset listing of the City, the Auditor of State contracted with a private company to provide a listing of the real estate holdings of the City of East Cleveland. On the attached listing, the following five properties: Helen S. Brown Senior Center, Forest Hills Park, City Hall, Fire Station #2 and Maintenance Garage are being used for the operations of the City that total approximately \$10 million.

Total Appraised Value		\$12,301,300

Schedule 4

City of East Cleveland - Cuyahoga County

Capital Asset Needs

as Identified by City Management

The City currently has the following vehicles and equipment:

Fire Department

1988 Ladder Truck	2000 Pumper Truck Engine
1993 Pumper Truck Engine	2002 Ambulance
1996 Ambulance	2002 Car
1998 Ladder Truck	2002 Car
1999 Pumper Truck Engine	2006 Ambulance
1999 Ambulance	2015 Ambulance

Per the City's Fire Chief, State regulations say that fire vehicles are only good for 15-20 years.

Per the City's Fire Chief, the City's ideal number of fire vehicles are:

2 pumper trucks, 1 ladder truck, 1 command vehicle and 3 ambulances.

The Fire Chief estimates that the cost to replace or repair the City's current fleet of fire vehicles will be approximately \$446,000.

Total Fire Department Capital Needs \$446,000

Police Department

1992 Humvee	2011 Crown Victoria
1999 E350	2011 Crown Victoria
1999 Dakota	2011 Crown Victoria
2000 Crown Victoria	2011 Durango
2000 GMC	2011 Crown Victoria
2002 Crown Victoria	2013 Explorer
2002 Crown Victoria	2014 Taurus
2003 Odyssey	2014 Explorer
2003 Cherokee	2014 Explorer
2003 A6	2014 Taurus
2003 Econoline Van	2014 Taurus
2006 Uplander	2014 Taurus
2008 Explorer	2014 Taurus
2010 Econoline Van	

Per the City's Police Chief, State regulations say that vehicles are good up to 50,000 miles. The City has 15 of the 27 police vehicles under 50,000 miles.

The Police Chief estimates that the City needs to replace annually 4 vehicles at a cost of \$35,000 each.

Per the City's Police Chief, 16 is the City's ideal number of police vehicles.

Total Police Department Capital Needs 140,000

(continued)

Schedule 4

City of East Cleveland - Cuyahoga County

Capital Asset Needs (continued)

as Identified by City Management

Service Department

1999 Tahoe	2002 Turf Tigers
2002 S10	2002 Turf Tigers
2002 Brush Hog	2004 Electric Truck
2002 Brush Hog	2004 Sweeper
2002 Backhoe	2014 Salt Truck
2002 Loader Case	2014 Salt Truck

Per the Service Director, the City needs a new dump truck at a cost of \$75,000.

The City has 50 lane miles of road within 3.4 square miles. Of the 3.4 square miles, 1.2 square miles are parks. The City maintains 177 streets.

Total Service Department Capital Needs \$75,000

City Wide

Per the City's Chief of Staff, the City needs the following items either repaired or replaced:

	Estimated Cost
* Replace streets entirely	\$75,000,000
@ Replace water and sewer lines	50,000,000
Replace service (City garage) building	5,000,000
Replace City Hall, Justice Center and Central Fire Station	30,000,000
Maintain inventory per department	
Police	100,000
Fire	100,000
Service	300,000
Replace traffic cameras	3,000,000
Replace and rewire street lights	10,000,000
Replace telephone system	100,000
Replace software, network, computers and servers	250,000
Replace radio system	150,000

* Per the City's Chief of Staff, most all of the City's streets need to be removed and taken down to the dirt. After that, they will need to be rebuilt and replaced. The City estimates that this will cost approximately \$75,000,000.

@ Part of the issue with the roads is the poor infrastructure underneath. This is comprised of the City's water and sewer lines. Per the Chief of Staff, the City's water and sewer lines are very old and are not up to industry standards. He stated that the City currently has up to 300 water main breaks and the City can't repair all of them.

He further indicated that even though the City of Cleveland provides water and sewer to the City of East Cleveland, the cost of repairing the above mentioned items is not included in the water and sewer fees currently in place. Any infrastructure repairs would be an additional charge to the City of East Cleveland and they do not have the money to do this.

Lastly he believes that the cost to remove the City's water and sewer lines and replace them with new ones will cost approximately \$50,000,000.

Total City Wide Capital Needs 173,800,000

Grand Total of the City's Capital Needs \$174,461,000

APPENDIX B

**City of East Cleveland
Cuyahoga County**

Effect on School District

City of East Cleveland – Cuyahoga County
Effect on School District

SCHOOL DISTRICT

- “Transferring Board”: The board of education for the school district from which territory will be transferred.
- “Receiving board”: The board of education for the school district that would be affected by the proposed change.

ORC 3311.06 – Procedure When District is Annexed by Municipal Corporation

1. If the annexed territory comprises part, but not all, of the territory of a school district, and the transferring district wishes to transfer the school district, it will become part of the school district upon approval by the state board of education.
2. The school district must attempt to negotiate the terms of transfer with the receiving board.
3. The state board can approve the transfer once it receives a resolution requesting approval by the receiving board, a statement signed and with the terms, among a few other things.

ORC 3311.24 – Transfer of Territory to Adjoining City

1. The transfer must be advisable and 75% of owners of real property must give written consent.
2. The transferring board must negotiate the terms of transfer with the receiving board.
3. The transferring board must file the proposal with the State Board of Education prior to April in any even-numbered year.
4. The State Board may provide for a public hearing.
5. The State Board must approve or disapprove the proposed transfer no later than September 1 after receiving the proposal. (Amount of time varies.)
6. Within 30 days of approval of transfer, the transferring board shall adopt a resolution transferring the territory to the receiving board. (30 Days)
7. The transfer is completed once the receiving board adopts a resolution accepting the transfer, among a few technical items.

ORC 3311.38 – Transfers of Territory Initiated by State or Local Board

1. The board of education of the city’s school district passes a resolution requesting that the entire school district be transferred to another city and submits the resolution to the state board of education.
2. The state board passes a resolution proposing transfer of territory from the transferring district to the receiving district and files the resolution with the boards of each school district.
3. At least 30 days after the adoption of the resolution, at the state board’s next regular meeting, the state board will have the resolution placed on the ballot. (At least 30 days.)
4. At least 90 days after the above meeting, the resolution will be placed on the ballot of a general or primary election. (At least 90 days.)
5. If a majority of qualified electors residing in the transferring school district vote to approve the transfer, the state board will conduct the transfer.

(This Page Intentionally Left Blank)
